July 2026

STUDY ASSIGNMENT: The study committee is directed to study current and emerging uses of artificial intelligence (AI) technology in health care. As part of its review, the study committee shall consider the use of AI technology in the patient-provider relationship, including use in clinical care and communication facilitation. The study committee shall also consider the use of AI in interactions between insurers or medical assistance programs and patients. Finally, the study committee shall consider the use of AI between insurers or medical assistance programs and providers, including in health care coverage decision making. After these reviews, the study committee shall consider recommending legislation that addresses standards for the use of AI in health care services and insurance.

16 MEMBERS: 2 Representatives; 2 Senators; and 12 Public Members.

LEGISLATIVE COUNCIL STAFF: Margit Kelley, Principal Attorney, Emily Hicks, Senior Staff Attorney, Kelly McGraw, Staff Attorney, and Katie Patyk, Administrative Staff.
